Position Description: Medical Physicist

Key Areas of Accountability:

Area of Accountability	Expected Results
General	<ul style="list-style-type: none"> Competently utilises the basic operation of the patient management system. Provides scientific advice and training to staff and students associated with St. George's Cancer Care Centre. Liaises and coordinates work with the Cancer Care Centre IT Support team.
Treatment Planning	<ul style="list-style-type: none"> Participates in the development of systems of work and protocols used in treatment planning. Prepares clinical treatment plans using the treatment planning system. Participates in the development of safe systems of checking to avoid treatment errors.
Dosimetry	<ul style="list-style-type: none"> Performs commissioning measurements on all kinds of radiotherapy equipment in order to verify that the equipment is operationally configured and suitable for clinical use. Collects and analyses complex data from radiotherapy treatment equipment to enable accurate manual and computer calculation of the treatment settings. Performs highly accurate routine and non-routine dosimetry and geometric quality control of the radiotherapy equipment to ensure that it remains within clinically acceptable tolerances. Performs on-going calibration and quality control of clinical dosimeters in order to maintain the accuracy and traceability of the dosimetry chain. Advises radiation therapists on technical aspects of complex treatment planning and use of the treatment planning system. Provides advice on treatment methods and on individual patient treatments to other professionals involved in radiotherapy.
Research and Development	<ul style="list-style-type: none"> Keeps an up-to-date knowledge of the latest technical and scientific developments in order to identify improvements to the service. Participates in R&D projects agreed by the Chief Physicist. Promotes the work done at the Cancer Care Centre through scientific publication and through presentations at local, national and international meetings.
Interpersonal Relationships/Leadership and Teamwork	<ul style="list-style-type: none"> Promotes harmonious working relationships within the department and with clinicians and other staff members. Appreciates and respects the contribution of others within the team. Contributes positively to the goals of the team and the organisation. Communicates effectively, honestly and openly with other team members. Fosters co-operation across clinical and administrative groups. Models the Cancer Care Centre's values.
Quality Improvement	<ul style="list-style-type: none"> Maintains operational and quality assurance procedures within the quality management system and proposes changes and improvements to procedures as necessary Participates actively in quality improvement activities by planning, implementing and evaluating improvements. Initiates, participates in design and evaluates audits and applies outcomes to improve service provision. Participates actively in Ministry of Health Certification and Accreditation process. Documents and reports incidents accurately in accordance with hospital policy. Participates actively in the development/review of policies and procedures. Performs routine quality assurance of imaging systems in radiotherapy, including the CT scanner, EPID and CBCT systems.

Position Description: Medical Physicist

Area of Accountability	Expected Results
	<ul style="list-style-type: none"> Performs quality assurance on the treatment planning computers in accordance with departmental procedures based on internationally recognised guidelines
Professional Development	<ul style="list-style-type: none"> Maintains professional standards at all times by applying the standards of practice as laid down by the professional body and the organisation. Demonstrates and facilitates contemporary knowledge and skills. Understands and adheres to all legislative requirements and follows St George's Hospital policies and procedures. Participates in an annual performance appraisal and the setting of performance objectives aligned to the goals of the organization. Identifies own learning requirements/deficits and discusses development plan with Manager. Attends CPR updates and familiarises self with emergency equipment. Attends relevant study days and in-service education. Fosters an environment conducive to learning, enquiry and research. Participates in approved research programmes as requested.
Organisational Culture	<ul style="list-style-type: none"> Fosters co-operation across the organisation. Is customer focused, understands and promotes the concept of internal and external customers (i.e. patients, colleagues and clinicians).
